## About This Game

Locus Solus Demo is a alpha version.

This game is created by takapi and it is still under development.

Demo version is the one I use while developing and it has the minimum field/dungeon/facility.

Map is small and there are some hiding bug.

Also there is no tutorial for this test version.

Please refer to the GUIDE on the website for operation or just enjoy figuring it out by yourself.

It will take a long time until it is completed.

So, when the game is finished to some degree, I will release it, and I will make it better by adding various elements and updating it.

- Preface -

Times have changed and the old order is being forgotten.

A new order has been now established.

Ruins of an old world

Give rise to a new

---

A changing world and its people.  
Where old blood is abandoned and new blood infused.

We are the philosophers, clinging to the old.  
We are all who remain sane in this mad world.

Old blood decays  
New blood gives way to new life

By devotion to an ideal already lost,  
We are castaways who hold steadfast to this era

What is right, what is insanity?  
Armed with rusty blades, this is our quest

To find an answer
